

FATAL ACCIDENT ALERT

A crane operator, age 34, was fatality injured on June 24, 2019, at approximately 3:20 p.m. The fatal accident occurred on a mine site in Oklahoma County.

The crane company was contracted by the mining operator to move a sand dredge from one location to another location. The accident occurred at the end of a work shift. The victim was struck, run over, and killed by a rig-up truck and a forty foot two axle trailer as it was leaving the area. For an unknown reason being investigated by ODM, the accident victim fell under the truck and was struck by the right side dual tires of the truck and trailer. The victim had eleven (11) years' experience as a crane operator.

Hazard awareness of your surroundings is essential for safe mining practices.
