## Title 45, Chapter 11

JANUARY 2012

Volume 13, Number 1

**IT'S TIME TO GET OUT OF YOUR RUT...**

**Refresh, Review, Reflect**

### Section 909 - Foreman Duties and Responsibilities

The mine foreman shall keep a careful watch over all operations with the utmost regard for the safety of all employees. His responsibility includes the use, storage and handling of explosives, condition of all equipment used, condition of roads in and out of the pits, drainage, roads to the tibble and other surface structures. Strip pit foreman shall devote the whole of their time to their duties when the strip mine is in operation.

### Section 910.A.7 – Proper Ground Control – Rules and Procedures

The supervisor or a certified person designated by him shall examine working areas and faces of walls for unsafe conditions at least at the beginning of each shift, during the shift while men are working, and after blasting. Any unsafe condition found shall be corrected before any further work is performed at the immediate area or face at which the unsafe condition exists.

### Section 914.1 – Travelways – Rules and Procedures

Safe means of access shall be provided and maintained to all working places.

### 919.1 – General Rules and Procedures

Each place of work shall be visited by a certified person at the beginning of, and at least once during, each shift and more frequently as is necessary to ensure that work is being done in a safe manner.

**PUT SAFETY ON YOUR LIST...MAKE IT  
MORE THAN A RESOLUTION!**
