Title 45, Chapter 11

November 2012

Volume 13, Number 11

RECREATIONAL ACTIVITY AND MINE SITES

- ▶ Be aware of who is on your mine site and for what purpose. Only allow authorized personnel in restricted and potentially dangerous areas.

- ▶ Do not assume, "It will be okay, just this once." Think and act responsibly every day.

It is the permittee's responsibility to make sure only authorized personnel are on the mine site and that each individual is aware of the hazards around the mine.

WHO'S ON YOUR SITE?
