Title 45, Chapter 11

March 2017

Volume 18, Number 3

Who Owns Safety?...I DO!!

Know the importance of conducting thorough pre-shift inspections. The actions you take during pre-shift workplace examinations may affect your overall mine safety program.

Section 919.1 – Each place of work shall be visited by a certified person at the beginning of, and at least once during, each shift and more frequently as is necessary to insure that work is being done in a safe manner.
