CHECK IT OUT...

Section 916.15

Repairs or maintenance shall not be performed on machinery until the power is off and the machinery is blocked against motion, except when machinery motion is necessary to make adjustments or when non-energized components of large machinery can be safely repaired while the machine is operating.

Section 916.16

Men shall not work on mobile equipment in a raised position until it has been blocked in place securely. This does not preclude the use of equipment specifically designed, such as elevated mobile work platforms.

BE SAFE!
