GENERAL CHARACTERISTICS OF THE MINE

NOTE: All of the following questions must be thoroughly answered regarding your mining operation for the intended life of the mine.

1. Answer all of the following that apply:

☐ If this is an application for a NEW permit, indicate the total acreage at the site to be covered by the permit: ________________

Will this application replace a limited use permit? Yes ☐ No ☐. If yes, indicate the Limited Use Permit No.: LU-535 ____________________

☐ If this is an application for RENEWAL of a mining permit, indicate the mining permit number and the total (overall) acreage covered by the existing permit:

Mining Permit No.: ________________ Total permitted acreage: ________________

☐ If this is an application for a REVISION to a mining permit, indicate the mining permit number and the total (overall) acreage covered by the existing permit.

Mining Permit No.: ________________ Total permitted acreage: ________________

Does the revision involve acreage within the previously approved permitted boundary? Yes ☐ No ☐. If yes, indicate the acreage to be covered by this revision: ________________

Does the request involve acreage to be added to the previously approved permitted boundary? Yes ☐ No ☐. If yes, indicate the additional acreage to be covered by this request: ________________

Total new acreage to be added: ________________ This request will be considered an amendment to the permit (Title 45 § 724 J.). The application must be submitted as required by and in accordance with OAC:10-19-4.(d).

If no was indicated please explain the revision requested: ________________

☐ If this is an application for TRANSFER of a mining permit, indicate the mining permit number and the total (overall) acreage covered by the existing permit.

Mining Permit No.: ________________ Total permitted acreage: ________________

Name of Company: ________________

☐ If this is an application for PURCHASE of a mining permit, indicate the mining permit number and the total (overall) acreage covered by the existing permit.

Mining Permit No.: ________________ Total permitted acreage: ________________

Name of Company: ________________

Will additional acreage be affected? _______ Yes _______ No

If yes, indicate how much additional acreage will be added: ________________

All the acreage within the "Operational Section must include the proposed mine excavation(s), processing plants, haul roads, stockpiles, and any refuse/waste areas or tailing ponds."

TOTAL PERMITTED AND BONDED ACRES AND MAPPING REQUIREMENTS

Will you file a bond covering all your mining acreage under your plan or will you file for an incremental mining plan?

Total Permit Area ___________________ Incremental Bonding  x ___________________

Please show your acreage below. If you have indicated incremental mining plan, then your acreage will be progressive to each incremental area. Prior to the issuance of this permit, a bonding map must be included detailing the sequence proposed for incremental bonding.

460:10-9-6. Mine maps should be accurate drawings, aerial photographs or enlarged topographic maps of the entire mine area and of a scale sufficient to clearly illustrate the following:
(1) Outline of the area to be permitted detailing the affected areas, incremental mining areas, planned future reserves if requested by the applicant, buffer zones, easements, and rights-of-ways, for the number of years the permit is requested.

460:10-21-4. (b) An operator shall not disturb surface acreage or extend any underground shafts, tunnels, or operations prior to receipt of approval from the Department of a performance bond covering the surface acreage to be affected.
(1) Liability on the performance bond shall cover all non-coal surface mining and reclamation operations to be conducted within the permit area. Except for limited use permits, after the amount of the bond has been determined for the permit area in accordance with Subchapter 23 of this Chapter, the permittee or applicant may either file:
(A) The entire performance bond required during the term of the permit;
(B) A cumulative bond schedule and the sequence of release of acreage as it progresses through varying reclamation phases and for the addition of acreage as it is affected. The amount of bond required to obtain a permit shall include the full reclamation cost of the initial area being affected; or
(C) An incremental bond schedule and the new performance bond required for the first increment in the schedule.
(2) When the operator elects to "increment" the amount of the performance bond during the term of the permit, he shall identify the initial and successive incremental areas for bonding on the permit application map submitted for approval as provided in Subchapter 17 of this Chapter and shall specify the proportion of the total bond amount required for the term of the permit which will be filed prior to commencing operations on each incremental area. The schedule amount of each performance bond increment shall be filed with the Department at least 45 days prior to the commencement of non-coal surface mining and reclamation operations in the next incremental area.

A separate schedule detailing each increment must be attached to the application. An Incremental bonding map must be submitted if the total permitted acreage is not covered by bond.

TOTAL ACREAGE TO BE COVERED BY PERMIT: ____________________________

REQUIRED BOND COVERAGE: Minimum bond shall be $2,000.00.

Type: Surety _______ Cash _______ Cashier’s Check _______ Certificate of Deposit _______

Letter of Credit _______ Other ____________________________________________

Bond Number Identification: ____________________________________________

Amount of Bond Coverage $ ____________________________

*Bond coverage submitted must be a total of the first increment or the entire permitted acreage requested.*

OKLAHOMA APPLICATION FOR A NON-COAL MINING PERMIT

Protection of Natural Resources

(Section 3)

1. Will the operation involve crushing or any other air contaminant emissions?

   Yes _____ No  x _____

If you indicated yes, please be advised that a permit may be required from the Air Quality Division of the Oklahoma Department of Environmental Quality. Please contact the agency for their respective requirements.

2. Will explosives be used?  Yes ______  No  x _____

If yes, review the enclosed Blasting Regulations and complete the enclosed Blasting Plan. Said plan should accompany the application upon submission. If a Blasting Plan does not accompany the application and explosives will be used, then a permit will not be issued until a plan is secured.

3. a. Will the operation involve washing the material mined, recycling processed water or other waste water handling?

   Yes _____  No  x _____

b. Will the operation involve dewatering the mine or discharging fresh or waste water from the mine or plant?

   Yes _____  No  x _____

c. Does this operation fall within the jurisdictional requirements of the stormwater regulations of the Oklahoma Department of Environmental Quality?

   Yes  x  No  _____

If you indicated yes to either 3a, 3b, or 3c, please be advised that a permit may be required from either the Department of Environmental Quality, Oklahoma Water Resources Board or the Army Corps of Engineers. Please contact each agency for its respective requirements.
4. Will the operation involve removing minerals from within any boundaries of river or streambed?

   Yes _____ No _____

 If you indicated yes, please complete the following questions regarding the type of stream and its name and location. If you indicated no, please proceed to Section 4.

5. a. What is the name of the stream or river? ______ N/A

   b. Which of the following classifies this stream or river? Please refer to OAC 460:10-13-2 for descriptions of each.

      _____ High Quality Water (HQW)
      _____ Outstanding resources waters (ORW)
      _____ Scenic river area
      _____ None of the above

 Please note: Certain permitting and operating procedures are required for mining permits in these environmental areas. Please refer to 460:10-13-3 for the requirements.

6. Does your operation overlie a sensitive sole source groundwater basin or subbasin?

   Yes _____ No _____

 Effective August 1, 2011, if you indicated yes, this operation falls within the permitting guidelines established by SB 597. You must contact the Oklahoma Water Resources Board to comply with additional permitting requirements.

7. How wide a buffer will be maintained between any mining activity and any mining permit boundary or right-of-way at this site? Show all buffer locations and widths on the mine map(s). All buffers must be located within the mining permit boundaries. ______ approximately 63 ft

 O.S. Title 45, Chapter 8, Section 730 "In the case of strip mining operations which remove and do not replace lateral support, unless pursuant to written agreement between the operator and the adjacent property owner, the top of the consolidated material of the open cut adjacent to the property line of other property not owned or leased by the operator shall, at the time mining is completed, not be closer to such other property line than a distance of twenty-five (25) feet plus one and one-half (1 1/2) times the depth of such cut as measured from original ground surface to the top of consolidated material."
OTHER LICENSES AND PERMITS

8. Has any other agency, local, state, or federal, been contacted to ascertain the need for other licenses and permits with respect to this operation?

Yes ☒ No _____

If you indicated no other agencies have been contacted, please be advised failure to obtain all the permits necessary for a mining operation may result in issuance of a permit violation or an interruption in mining activity until the required permits are secured.

Please refer to the Non-Coal Permitting Guidelines and Summary and the Notice below regarding other possible governing entities that may need to be contacted. Provide a list of all other licenses and permits needed for this mining operation. If a license or permit has been issued, please provide the Permit Identification Number and date of Approval or a copy of said permit or license. (Title 45 § 724 I.) If a permit or license is pending, please provide copies of your applications or Notices of Intent (N.O.I.) that have been submitted to other agencies.

If this application is for a revision to an existing permit, copies of all issued permits must be included.

Please Note: A special permit to operate within certain municipalities or counties may be required. It is the responsibility of each applicant to contact the appropriate city or county officials to determine if the mining operation falls within their respective jurisdiction.
SPECIALIZED PROCESSING OR MANUFACTURING

9. Will specialized processing or manufacturing be conducted on site with the material mined that is not directly associated to mining? This includes specialized processing of the material after mining and processed by a plant site immediately after excavation of the material. This product would be unique in nature and produced from the material mined. This specialized processing or manufacturing facility might not be part of the mining process, and thereby, not included in the permit area requested in the application.

_________Yes  ________x________ No

If "yes" was indicated, please provide ODM with a detailed narrative of the activity. The location of the specialized processing facility will need to be disclosed on the mining map. The description of the activity should include the product manufactured, the point at which the mining process ceases, and the manufacturing begins, (specialized process). The description should include the equipment used and a flow chart showing the process. Once the description of the process is reviewed, a determination of applicability will be made by the Department. If the Department finds that the process is not directly associated with the mining, this area may be removed from permit consideration.

Does the mineral seam contain acid-forming materials? ______ Yes  X  No

If yes, please complete Question #3 of the Attachment forms.

Reclamation Attachments and Narratives addressing each and every issue as outlined in the Rules & Regulations must be part of your Reclamation Plan and attached to this form.

Form N-C Rec. Plan; Sec. 4/Rev. 06-17
RECLAMATION PLAN ATTACHMENT

(1) **RE-VEGETATION PLAN:** Describe the plan for re-vegetation or other surface treatment of affected area(s). The re-vegetation plan shall include but not limited to the following: *Each item must be addressed or plan will be returned. 460:10-15-3 (6)*

(A). Planned soil tests:

Take a soil sample to the OSU Extension office in Poteau, Oklahoma for tests

(B). Site preparation and fertilization:

Fill, level, grade
17/17/17 fertilizer

(C). Seed and Plant selection:

Bermuda, clover, and lespedza

(D). Rate of seeding or amount of planting per acre:

3 pounds/acre Bermuda
10 pounds/acre Clover
10 pounds/acre Lespedeza

(E). Are there other surface treatments that will be performed to the affected land during reclamation? __________ yes, ______ x ______ no.

If yes please explain:
(2) Describe method to prevent or eliminate conditions that could be hazardous to animal or fish life in or adjacent to the permit area.

There are no hazardous conditions to the wildlife. If any hazardous conditions become apparent during the period of this permit they will be addressed and to the best of our ability immediately resolved.

(3) Provide, as a separate document, a closure plan of the mine and permitted facilities to prevent a release of contaminants for being harmful to the environment. **A closure plan is not necessary for all mines**, but is required where the possibility exist for (a) acid-forming materials handling or drainage; (b) Chemically treated tailings or stockpiles (excludes fertilizer or lime for re-vegetation purposes).

There are no acid forming material in this vein of stone.

(4) Method of control and disposal of mine waste, rock, mineral scrap, tailings, slimes, and other material directly connected with the mining, cleaning, and preparation of mineral substances mined and includes all waste materials deposited on or in the permit area from any source.

The scrap stone will be used in the fill process before the leveling takes affect.
(5) **Method of reclaiming settling and/or sediment ponds.**

There will be no sediment ponds. All water reservoirs will be formed according to department specification. We will fill, level, and grade the quarry to the best of our ability.

(6) For final reclamation, submit information about practices to provide for safety to persons and to adjoining property in all excavations. Identify area of potential danger and appropriate safety provisions. These provisions can include but are not limited to setbacks, fencing, signs, benching, guardrails and boulders.

Berms will be put in place to protect from any potential dangers.

(7) **Identify structures (e.g. buildings, roads) that are proposed to remain as part of the final reclamation.**

There will be no building remaining on site at completion of final reclamation.
