Oklahoma City, OK 73106

RE: Campbell's Sand and Topsoil, Inc., Red Dirt Hill

Dear Mr. Mike Kelly:

On behalf of CAMPBELL’S SAND AND TOPSOIL, INC. (CAMPBELL), I submit three copies of the Non-Coal Mining / Reclamation Permit Application Package (PAP) regarding the above referenced project for your review and approval. The permitted area is located in portion of Section 34, T13N, R5W, Canadian County, Oklahoma.

Please call me at 405-557-0000 if I can be of any assistance.

Sincerely,

Saeed Zahrai, P. E.
President

OPERATIONAL SECTION
GENERAL CHARACTERISTICS OF THE MINE

OTE: All of the following questions must be thoroughly answered regarding your mining operation for the intended life of the mine.

1. Answer all of the following that apply:

☐ If this is an application for a NEW permit, indicate the total acreage at the site to be covered by the permit: 94.0

☐ If this is an application for RENEWAL of a mining permit, indicate the mining permit number and the total (overall) acreage covered by the existing permit:

Mining Permit No.: _______________ Total permitted acreage: _______________

☐ If this is an application for a REVISION to a mining permit, indicate the mining permit number and the total (overall) acreage covered by the existing permit:

Mining Permit No.: ___________ Total permitted acreage: _______________

Does the revision involve acreage within the previously approved permitted boundary? Yes ☐ No ☐. If yes, indicate the acreage to be covered by this revision: _______________

Does the revision involve acreage to be added to the previously approved permitted boundary? Yes ☐ No ☐. If yes, indicate the additional acreage to be covered by this revision: _______________

Total new acreage to be added: ___________ This revision will be considered a major revision and must be submitted as required by in accordance with OAC:10-19-4.(d)

If no was indicated please explain the revision requested: _______________

☐ If this is an application for TRANSFER of a mining permit, indicate the mining permit number and the total (overall) acreage covered by the existing permit.

Mining Permit No.: _______________ Total permitted acreage: _______________

Name of Company: _______________

☐ If this is an application for PURCHASE of a mining permit, indicate the mining permit number and the total (overall) acreage covered by the existing permit.

Mining Permit No.: _______________ Total permitted acreage: _______________

Name of Company: _______________

Will additional acreage be affected? ☐ Yes ☐ No

If yes, indicate how much additional acreage will be added: _______________

All the acreage within the "Operational Section must include the proposed mine excavation(s), processing plants, haul roads, stockpiles, and any refuse/waste areas or tailing ponds.

☐ Campbell's Sand and Topsoil, Inc. / Red Dirt Hill _______________ 4 ___________
TOTAL PERMITTED AND BONDED ACRES AND MAPPING REQUIREMENTS

Will you file a bond covering all your mining acreage under your plan or will you file for an incremental mining plan?

Total Permit Area ___________________________ Incremental Bonding X

Please show your acreage below. If you have indicated incremental mining plan, then your acreage will be progressive to each incremental area. Prior to the issuance of this permit, a bonding map must be included detailing the sequence proposed for incremental bonding.

PLEASE REFER TO THE PAGE FOLLOWING THE NEXT PAGE AND ENCLOSED BONDING MAP.

460:10-9-6. Mine maps should be accurate drawings, aerial photographs or enlarged topographic maps of the entire mine area and of a scale sufficient to clearly illustrate the following:

(1) Outline of the area to be permitted detailing the affected areas, incremental mining areas, planned future reserves if requested by the applicant, buffer zones, easements, and rights-of-ways, for the number of years the permit is requested.

460:10-21-4. (b) An operator shall not disturb surface acreage or extend any underground shafts, tunnels, or operations prior to receipt of approval from the Department of a performance bond covering the surface acreage to be affected.

(1) Liability on the performance bond shall cover all non-coal surface mining and reclamation operations to be conducted within the permit area. Except for limited use permits, after the amount of the bond has been determined for the permit area in accordance with Subchapter 23 of this Chapter, the permittee or applicant may either file:

(A) The entire performance bond required during the term of the permit;

(B) A cumulative bond schedule and the sequence of release of acreage as it progresses through varying reclamation phases and for addition of acreage as it is affected. The amount of bond required to obtain a permit shall include the full reclamation cost of the initial area being affected; or

(C) An incremental bond schedule and the new performance bond required for the first increment in the schedule.

(2) When the operator elects to "increment" the amount of the performance bond during the term of the permit, he shall identify the initial and successive incremental areas for bonding on the permit application map submitted for approval as provided in Subchapter 17 of this Chapter and shall specify the proportion of the total bond amount required for the term of the permit which will be filed prior to commencing operations on each incremental area. The schedule amount of each performance bond increment shall be filed with the Department at least 45 days prior to the commencement of non-coal surface mining and reclamation operations in the next incremental area.

A separate schedule detailing each increment must be attached to the application. An Incremental bonding map must be submitted if the total permitted acreage is not covered by bond.

TOTAL ACREAGE TO BE COVERED BY PERMIT: 94.0

REQUIRED BOND COVERAGE: Minimum bond shall be $2,000.00.

Type: Surety ________ Cash ________ Cashier’s Check ________ Certificate of Deposit ________

Letter of Credit ________ Other ________________________________

Bond Number Identification: ________________________________

Amount of Bond Coverage $ ________________________________

Bond coverage submitted must be a total of the first increment or the entire permitted acreage requested.

PERMIT TERM JUSTIFICATION
(The following information is provided by the applicant)

Permit term requested: Life*
Area to be mined: 94.0 acres
Depth of mining, Average and Deepest: 15 to 30 feet
Total reserve (80.0 ac. X 15 ft. X 43,560/27): 1,936,000 yd³
Life of mine (1,936,000 tons /150,000* tons per year): 13* years

* The annual tonnage will increase or decrease based on the market demands and the applicant's desires. Therefore, the permittee is requesting the permit to be issued for the life of the reserve.
REAL ESTATE LEASE AGREEMENT

LEGAL NOTICE

Campbell's Sand and Topsoil, Inc., P. O. Box 325, Piedmont, OK 73078, has submitted a permit application to the Oklahoma Department of Mines (ODM) to mine clay, sand, and gravel through the surface mining methods on portions of the following parcels of land:

Section 34, Township 13 North, Range 5 West, Canadian County, Oklahoma.

The total permit area, containing 94.0 acres, is located in the Bethany, OKLA., U.S.G.S. quadrangle map. The proposed permit site is located within the City of Oklahoma City, 0.25 mile north of Wilshire Blvd., just west of N. Sara Rd., 1.5 miles east of State Highway 4, 2.0 miles south of State Highway 3, and 3 miles northeast of Yukon. North Canadian River meanders in the southeasterly direction less than 0.5 mile south of the area to be permitted.

A copy of this complete permit application is available for public inspection and copying at the County Clerk's Office, 201 N. Choctaw Ave., El Reno, OK 73036.

Upon written request to the Oklahoma Department of Mines, information contained in the permit application may be inspected or copied at the Oklahoma Department of Mines. Any landowner or resident of any occupied dwelling, any public entity or public agency, or any party that may be adversely affected has the right to submit comments or object to the issuance of the permit in writing. An informal conference will be provided if requested. Any objections or requests for an informal conference on this application must be in writing and received no later than fourteen (14) days after the final publication of this notice to the Oklahoma Department of Mines, 2915 N. Classen Blvd., Suite 213, Oklahoma City, Oklahoma 73106.

COMPLIANCE INFORMATION

460:10-11-6(1)

1. Has the applicant for the permit, or any subsidiary, affiliate or by or under common control with the applicant:

   460:10-11-6(1)(A)

   1a. Had a federal or state mining permit suspended or revoked in the last five (5) years?

       _____ Yes  X  No

   460:10-11-6(1)(B)

   1b. Forfeited a mining bond or similar security deposited in lieu of bond?

       _____ Yes  X  No

460:10-11-6(2)

2. If the answer to either 1a or 1b above was yes, applicant should provide the following information:

   460:10-11-6(2)(A)  N/A

   2a. ___________________ of the Permit, or $________________________

       Identification #          Amount of Bond

   460:10-11-6(2)(A)

   2b. Provide the name of the authority that suspended or revoked a permit or forfeited a bond:

       ____________________________

       N/A

   Provide the reason for such action:

       ____________________________

       _____ Campbell’s Sand and Topsoil, Inc. / Red Dirt Hill ______________________ 17
2c. What is the current status of the permit, bond or similar security involved?

N/A

2d. Provide the date, location and type of any administrative or judicial proceedings initiated concerning the suspension, revocation or forfeiture:

——— Date ———— Location ———— Type

2e. What is the current status of these proceedings?

SECTION 3

PROTECTION OF NATURAL RESOURCES
OKLAHOMA APPLICATION FOR A NON-COAL MINING PERMIT
Protection of Natural Resources
(Section 3)

1. Will the operation involve crushing or any other air contaminant emissions?
   Yes _____ No _____ X

   *If you indicated yes, please be advised that a permit may be required from the Air Quality Division of the Oklahoma Department of Environmental Quality. Please contact the agency for their respective requirements.*

2. Will explosives be used? Yes _____ No _____ X

   *If yes, review the enclosed Blasting Regulations and complete the enclosed Blasting Plan. Said plan should accompany the application upon submission. If a Blasting Plan does not accompany the application and explosives will be used, then a permit will not be issued until a plan is secured.*

3. a. Will the operation involve washing the material mined, recycling processed water or other waste water handling?
   Yes _____ No _____ X

   b. Will the operation involve dewatering the mine or discharging fresh or waste water from the mine or plant?
   Yes _____ No _____ X

   c. Does this operation fall within the jurisdictional requirements of the stormwater regulations of the Oklahoma Department of Environmental Quality?
   Yes X No _____

   *If you indicated yes to either 3a, 3b, or 3c, please be advised that a permit may be required from either the Department of Environmental Quality, Oklahoma Water Resources Board or the Army Corps of Engineers. Please contact each agency for its respective requirements.*

   ———— Campbell's Sand and Topsoil, Inc. / Red Dirt Hill ————

   20 ————
4. Will the operation involve removing minerals from within any boundaries of river or streambed?

Yes ___ No ___ X ___

If you indicated yes, please complete the following questions regarding the type of stream and its name and location. If you indicated no, please proceed to Section 4.

5. a. What is the name of the stream or river? N/A

b. Which of the following classifies this stream or river? Please refer to OAC 460:10-13-2 for descriptions of each. N/A

_____ High Quality Water (H qw)
_____ Outstanding resources waters (ORW)
_____ Scenic river area
_____ None of the above

Please note: Certain permitting and operating procedures are required for mining permits in these environmental areas. Please refer to 460:10-13-3 for the requirements.

6. Does your operation overlie a sensitive sole source groundwater basin or subbasin?

Yes ___ No ___ X ___

Effective August 1, 2011, if you indicated yes, this operation falls within the permitting guidelines established by SB 597. You must contact the Oklahoma Water Resources Board to comply with additional permitting requirements.

7. How wide a buffer will be maintained between any mining activity and any mining permit boundary or right-of-way at this site? Show all buffer locations and widths on the mine map(s). All buffers must be located within the mining permit boundaries. (1.5 x mining depth)+25'

O.S. Title 45, Chapter 8, Section 730 “In the case of strip mining operations which remove and do not replace lateral support, unless pursuant to written agreement between the operator and the adjacent property owner, the top of the consolidated material of the open cut adjacent to the property line of other property not owned or leased by the operator shall, at the time mining is completed, not be closer to such other property line than a distance of twenty-five (25) feet plus one and one-half (1 1/2) times the depth of such cut as measured from original ground surface to the top of consolidated material.”

_____ Campbell's Sand and Topsoil, Inc. / Red Dirt Hill ____________________________ 21 __________________
OTHER LICENSES AND PERMITS

8. Has any other agency, local, state, or federal, been contacted to ascertain the need for other licenses and permits with respect to this operation?

Yes ___ X ___ No ___

*If you indicated no other agencies have been contacted, please be advised failure to obtain all the permits necessary for a mining operation may result in issuance of a permit violation or an interruption in mining activity until the required permits are secured.*

Please refer to the *Non-Coal Permitting Guidelines and Summary* and the Notice below regarding other possible governing entities that may need to be contacted. Provide a list of all other licenses and permits needed for this mining operation. If a license or permit has been issued, please provide the Permit Identification Number and date of Approval or a copy of said permit or license. (Title 45 § 724 I.) If a permit or license is pending, please provide copies of your applications or Notices of Intent (N.O.I.) that have been submitted to other agencies.

Please Note: A special permit to operate within certain municipalities or counties may be required. It is the responsibility of each applicant to contact the appropriate city or county officials to determine if the mining operation falls within their respective jurisdiction.

SPECIALIZED PROCESSING OR MANUFACTURING

9. Will specialized processing or manufacturing be conducted on site with the material mined that is not directly associated to mining? This includes specialized processing of the material after mining and processed by a plant site immediately after excavation of the material. This product would be unique in nature and produced from the material mined. This specialized processing or manufacturing facility might not be part of the mining process, and thereby, not included in the permit area requested in the application.

_____X_____Yes  _____No

If “yes” was indicated, please provide ODM with a detailed narrative of the activity. The location of the specialized processing facility will need to be disclosed on the mining map. The description should include the equipment used and a flow chart showing the process. Once the description of the process is reviewed, a determination of applicability will be made by the Department. If the Department finds that the process is not directly associated with the mining, this area may be removed from permit consideration.
LIST OF REGULATORY AGENCIES

The operator is advised that permit, license, clearance from or consultation with the following governmental agencies may be required:

1. Oklahoma Department of Environmental Quality, Water Quality Division

MINING / RECLAMATION PLAN
OKLAHOMA APPLICATION FOR A NON-COAL MINING PERMIT
NON-COAL OPERATOR'S RECLAMATION PLAN
(Section 4)

PERMIT NO.: ______________________

DATE: May 1, 2022

NAME OF COMPANY  Campbell's Sand & Topsoil, Inc.

MINE NAME OR NO. Red Dirt Hill

Reclamation plan covers 94.0 permitted acres and 7.0 bonded acres

GENERAL RECLAMATION PLAN

USE OF LAND WHEN RECLAMATION IS COMPLETED (Check one or more; show acreage):

Please note: Acreage must total the entire permitted acreage.

WHAT WILL YOU DO TO MAKE LAND USABLE FOR PURPOSE STATED ABOVE? (Check one or more).

1. Fill
2. Level
3. Grade - approximate date of grading (If unknown, show as "unknown") Unknown

X 4. Other (Explain) Refer to Section 4 and 5 of the Application

X 5. Plant grass
6. Sprig or sod grass
7. Set out trees
8. Build dam
9. Stock with fish
10. Stock with game

11. None (Explain)

Does the mineral seam contain acid-forming materials? Yes X No

If yes, please complete Question #3 of the Attachment forms.

Reclamation Attachments and Narratives addressing each and every issue as outlined in the Rules & Regulations must be part of your Reclamation Plan and attached to this form.

Form N-C Rec. Plan; Sec. 4/ Rev 06-17

RETURN WITH APPLICATION.

STATE OF OKLAHOMA
DEPARTMENT OF MINES
2913 North Lincoln Blvd., Suite 213
OKLAHOMA CITY, OKLAHOMA 73106

Period Of:

_________ to __________

If, for any reason whatever, you stop operating at the location you show here, notify the Department of Mines immediately as your liability continues in effect until the Department is notified and/or completed reclamation is approved.

COMPANY: CAMPBELL'S SAND & TOPSOIL, INC.,

MINERAL TO BE MINED: CLAY, SAND, AND GRAVEL

ACRES THIS SECTION TO BE COVERED BY PERMIT & BOND: 94.0

TOTAL ACRES TO BE COVERED BY PERMIT: 94.0

SECTION: 34  TOWNSHIP: 13N  RANGE: 5W  COUNTY: CANADIAN

One Section divided into 10-acre tracts.

PLOT LOCATION as accurately as possible on map.

PERMIT BOUNDARY

SW SCALE: 1" = 1000' SE

DATE: 05-01-2022
RECLAMATION PLAN ATTACHMENT

(1) RE-VEGETATION PLAN: Describe the plan for re-vegetation or other surface treatment of affected area(s). The re-vegetation plan shall include but not limited to the following: Each item must be addressed or plan will be returned. 460:10-15-3 (6)

(A). Planned soil tests:

(B). Site preparation and fertilization:

(C). Seed and Plant selection:

(D). Rate of seeding or amount of planting per acre:

PLEASE REFER TO ENCLOSED SECTION 5 OF THE PERMIT APPLICATION PACKAGE (PAP) REGARDING ITEMS A, B, C, AND D.

(E). Are there other surface treatments that will be performed to the affected land during reclamation? Yes ___ No ___
If yes please explain:

(2) Describe method to prevent or eliminate conditions that could be hazardous to animal or fish life in or adjacent to the permit area.

DURING THE MINING PHASE, POTENTIALLY HAZARDOUS SUBSTANCES (E.G., PETROLEUM PRODUCTS) WILL BE USED, STORED, AND PROPERLY DISPOSED OF TO PREVENT LONG TERM SITE CONTAMINATION. STORM WATER AND PROCESS WASTE WATER PERMITS AND PLANS IF REQUIRED BY THE STATE WILL BE ENFORCED DURING THE MINING AND RECLAMATION PHASES. SEDIMENT CONTROLS WILL BE USED DURING THE MINING AND RECLAMATION OPERATIONS TO REDUCE SEDIMENTATION UNTIL VEGETATION AND/OR BMPs ARE ESTABLISHED.

FENCING, BERMS, BUFFERS, OR OTHER BARRIERS WILL BE USED TO PREVENT ACCESS TO POTENTIALLY HAZARDOUS AREAS.

(3) Provide, as a separate document, a closure plan of the mine and permitted facilities to prevent a release of contaminants for being harmful to the environment. A closure plan is not necessary for all mines, but is required where the possibility exist for (a) acid rock drainage; (b) Chemically treated tailings or stockpiles (excludes fertilizer or lime for revegetation purposes).

_____ Campbell's Sand and Topsoil, Inc. / Red Dirt Hill ___________________________ 29 _____
A CLOSURE PLAN WAS NOT PREPARED FOR THIS FACILITY SINCE THE MINERALS TO BE MINED, AND OTHER SOIL MATERIALS TO BE DISTURBED ARE NOT TESTED TO DETERMINE WHETHER THEY ARE POTENTIALLY ACID FORMING. ALSO, THE TAILINGS AND STOCKPILES WILL NOT BE CHEMICALLY TREATED.

(4) Method of control and disposal of mine waste, rock, mineral scrap, tailings, slimes, and other material directly connected with the mining, cleaning, and preparation of mineral substances mined and includes all waste materials deposited on or in the permit area from any source.

MOST MATERIALS WILL BE SOLD AS PRODUCT. ANY MATERIALS THAT REMAIN AFTER THE MINING WILL BE GRADED, BURIED, OR USED AS FILL DURING THE RECLAMATION ACTIVITIES.

(5) Method of reclaiming settling and/or sediment ponds.

Not Applicable.

(6) For final reclamation, submit information about practices to provide for safety to persons and to adjoining property in all excavations. Identify area of potential danger and appropriate safety provisions. These provisions can include but are not limited to setbacks, fencing, signs, benching, guardrails and boulders.

FENCING, BERMS, BUFFERS OR OTHER BARRIERS WILL BE USED TO PREVENT ACCESS TO THE POTENTIALLY HAZARDOUS SLOPES (E.G., HIGH WALLS). SETBACKS AND LATERAL SUPPORT WILL REMAIN TO PROVIDE STABILITY AND TO PREVENT IMMEDIATE ACCESS TO THE MINE FROM ADJACENT AREAS.

(7) Identify structures (e.g. buildings, roads) that are proposed to remain as part of the final reclamation.

ALL BUILDINGS, STRUCTURES, ACCESS ROADS, AND EQUIPMENT WILL BE REMOVED UNLESS OTHER ARRANGEMENTS ARE MADE WITH THE LANDOWNER, IF DIFFERENT FROM THE PERMITTEE.
MINING / RECLAMATION PLAN

The permittee proposes to excavate clay, sand, gravel, and other minerals through surface mining methods in portions of Section 34, T13N, R5W, Canadian County, Oklahoma (refer to the enclosed Figure 1, maps MP-1, MP-2, MP-3, and MP-4). The applicant will use construction / mining equipment, haul roads, office, and stockpiles to facilitate the mining/reclamation operations. The outlines of the stockpiles, management area, storage, parking, and mining areas are shown on map MP-2.

Blasting will not be conducted for the proposed operation.

Prior to mining, topsoil will be removed after vegetative cover that could interfere with the use of the topsoil is cleared from the area to be disturbed. The topsoil will be stored in the stockpile area to be sold, or will be redistributed over the disturbed areas at the completion of the mining operation. Topsoil stockpiles will be seeded with quick-growing annual and perennial grass seeds. Topsoil stockpiles will be mulched, when necessary, at a rate of 2.5 tons per acre to provide a quick protective cover or aid in germination of plant and seeds. The applicant anticipates surface mining the materials to be mined to a maximum depth of 25 feet below the existing surface. The mining sequence and/or excavation depth may have to be changed due to unfavorable field conditions and/or circumstances beyond the applicant’s control. To control dust, the applicant proposes to spray water on the stockpiles (if necessary) and haul roads, when needed, as determined by the applicant. The perimeter of the permitted area or the disturbed area may be fenced and posted to keep out unauthorized personnel.
Barrier berms and/or fences will be constructed around the highwalls (if any) of the mining areas and/or the excavated pits. Signs will also be posted on the fences, providing adequate warning to the public.

Upon completion of the mining operation, all available topsoil will be redistributed on the disturbed area, where possible; and seeded.

Elevation relief within the proposed area ranges from about 1,304 feet above mean sea level (AMSL) near the northeast portion of the proposed site, to approximately 1,265 feet AMSL near the southern portion of the proposed site. The anticipated final surface configurations and contours of the proposed permit area are shown on map MP-3.
SECTION 5

REVEGETATION PLAN
REVEGETATION PLAN

Table 2 presents the species, seeding or planting rates, dates, and methods to be used to revegetate all topsoiled areas, when needed. The species listed on this table will be established on the topsoiled areas alone or as a mixture.

After topsoil has been redistributed, leveled, and smoothed, soil samples will be collected, from those areas that could be revegetated, and analyzed to determine the nutrient and lime deficiencies. Soil samples will be analyzed for pH, buffer index, nitrogen, phosphorus, and potassium. Any deficiencies will be corrected, according to Natural Resources Conservation Service recommendations, based on the results of the analysis, before permanent seeding takes place. Lime and fertilizer will be broadcasted over the topsoiled areas. However, it is preferable to place fertilizer in the rows at the time of seeding or planting, if possible. Other than customary soil preparation, nutrient and lime application, no other soil remediation will be performed to make the soil suitable and capable for revegetation.

After fertilizing is completed, the topsoil will be disked to a depth of 6 to 12 inches to provide a smooth and firm bed suitable for seeding. The disking operation will be performed along the contour. A cultipacker or harrow will be used to firm the soil, when needed. Seedbed preparation should be conducted within 24 hours preceding the seeding. This will ensure (a) a suitable seedbed for planting and seeding, and (b) that the topsoiled area will not be left unrevegetated and plowed up (disked) for a prolonged period of time.
When seeding of the permanent species is not feasible due to climatic or biological conditions, temporary species (listed in Table 2) will be broadcasted as in situ mulch in order to provide a quick vegetative cover. Wheat straw or improved pasture grasses hay will be used as mulch material. The hay mulch will be applied in a uniform thickness at the rate of 2.5 tons per acre on the topsoiled and revegetated areas which are susceptible to erosion. Mulch will be applied by a hay blower or by hand. Mulch will be anchored, when necessary, by treading or cutting the hay into the soil 2 to 3 inches deep on the contour at less than 8-inch spacing. A bulldozer or disk will be used to crimp the mulch into the topsoil.

Irrigation, and pest and disease control measures are not anticipated at this time.

SECTION 6

BLASTING PLAN

(NOT REQUIRED)
SECTION 7
LETTERS TO OTHER AGENCIES
OKLAHOMA DEPARTMENT OF ENVIRONMENTAL QUALITY

NOTICE OF INTENT (NOI)

FOR STORMWATER DISCHARGES ASSOCIATED WITH INDUSTRIAL ACTIVITY
UNDER THE OPDES MULTI-SECTOR GENERAL PERMIT OKR05
Oklahoma Department of Environmental Quality
Authorization to Discharge Under the OPDES Stormwater Industrial
General Permit OKR05

Authorization No. OKR050129

In compliance with the Oklahoma Pollution Discharge Elimination System (OPDES) Act, 27A O.S. §2-6-201, the Rules of the Oklahoma Department of Environmental Quality (DEQ), and in reliance on the certified statements and representations heretofore made in its application,

CAMPBELLS SAND & TOPSOIL, INC.
PO BOX 325
Piedmont, OK 73078

is authorized to discharge stormwater from an industrial site located in Canadian County at

The Money Pit #1
10600 W BRITTON RD
Yukon, OK 73099

The receiving body of water is Wilshire Creek.

The OPDES permit requires permittees to have a Stormwater Pollution Prevention Plan (SWP3) which includes a description of appropriate control measures. These are applicable to your industrial site, which is subject to inspection.

Proof of this authorization must be available at the facility.

The authorization shall become effective May 25, 2018 and will expire at midnight July 4, 2022.

All terms and conditions of the OPDES Stormwater Industrial General Permit OKR05, as published on July 5, 2017, shall apply to the recipient of this authorization.

BONDING REQUIREMENTS
NON-COAL BOND INFORMATION SHEET

COST PER ACRE

NON-COAL MINING OPERATIONS: THE MINIMUM BOND SHALL BE TWO-THOUSAND DOLLARS ($2,000.00).

TITLE 45 O.S. §728 (B)

A SINGLE BOND MAY COVER ALL OF THE OPERATOR'S MINING OPERATIONS IN THE STATE.

TITLE 45 O.S. §728 (C)

BUILDING STONE $1,500.00 PER ACRE
FILL SAND & GRAVEL $1,500.00 PER ACRE
SAND & GRAVEL REMOVED FROM RIVERBED OR CREEK ...... $1,500.00 PER ACRE
OR ...."MINIMUM BOND" WHICHEVER IS GREATER IN AMOUNT.

SHALE
CLAY
LIMESTONE
ROCK ALL MATERIALS MENTIONED TO THE LEFT ......... $1,500.00 PER ACRE
GYPSUM
VOLCANIC ASH
SALT
SELECT MATERIALS

WHEN SUBMITTING APPLICATION, MAKE SURE TO ENCLOSE A ONE-HUNDRED AND SEVENTY-FIVE DOLLARS ($175.00) PERMIT FEE. THIS FEE IS ALSO DUE ON THE ANNIVERSARY DATE OF EACH YEAR OF THE PERMIT (TITLE 45 O.S. §724 (E)).
THE MINING LANDS RECLAMATION ACT

SURETY BOND

Surety Company Bond No. ____________________________

KNOW ALL MEN BY THESE PRESENTS that the undersigned ____________________________ as principal

and ____________________________ as surety

are held and firmly bound unto the State of Oklahoma in the penal sum of ____________________________ Dollars ($ __________________) for the payment of which sum,

well and truly to be made, we hereby jointly and severally bind ourselves, our heirs, administrators, executors, successors, and assigns.

THE CONDITION OF THE ABOVE OBLIGATION IS SUCH that whereas the above named principal does on the ____________________________ day of __________, file with the Department of Mines an application to secure a permit to engage in mining in the State of Oklahoma under the terms and provisions of The Mining Lands Reclamation Act and in said application the principal estimates that ____________________________ acres of land will be affected by mining, or whereas said principal now holds a permit covering such acres:

_____________________

if said principal shall satisfactorily reclaim all lands affected by mining by said principal within the State of Oklahoma in accordance with Sections 725 and 726 of The Mining Lands Reclamation Act, 45 O.S. Section 721 et seq., and shall faithfully perform all requirements of this Act and comply with all rules of the Department made in accordance with the provisions of this Act, then this obligation shall be void. Otherwise it shall remain in full force and effect until the reclamation is completed as prescribed by The Mining Lands Reclamation Act, except if this bond is replaced or if operation covered by this bond is sold with the buyer assuming responsibility for reclamation.

This bond may be released by the Department upon not less than 90 days request in writing to the Department, but such termination of the bond shall not affect the liability incurred on or before the date of such termination.

Release of a bond for any reason must be requested in writing.

Where one signs by virtue of Power of Attorney for a surety company, such Power of Attorney must be filed with the bond.
